

Creative Director: Minju Kim

Designer: Allison Fong

Project title: Bento

- The designer mentioned that mockup 1 is more achievable for her
 - Told her whatever she feels more comfortable and enjoyable to work with
 - Then continued giving more feedback on mockup 1
- Too many different sizes of photo
 - I like it, but maybe having 2 or 3 different sizes of photos would make the webpage more organized
 - If not, at least match the ratios for each photo
- The texts for navigation are too close to each other
 - Also, give some margins on the top and bottom for the navigation bar – too close to the main content and the title
- Have more dynamic font size changes to make the typographical hierarchy clear
- Give some border-radius in each photo
