

Creative Director: Minju Kim

Designer: Allison Fong

Project title: Bento

- type size is a little big
 - Especially for the captions of each image
- Maybe try adding a drop shadow to the images
 - See if it works! If you don't like them, you can take them out
- increase the line height of the nav bar for more breathing space
- add a div bar that's 10 pix wide and add a border for little line elements
- Match the overall width of the images on the gallery tab(slightly bigger than the images below)
- Gallery: use a 4x4 grid (squares); having different-sized photos if possible
- Footer: is the only section that has a background; add the same background color to the nav section
 - Try giving background color to the div class
- decrease the height of History image
